

Rich Woodgrain Appearance

We've combined the natural appearance of richly-grained wood with the unique performance characteristics of low-maintenance vinyl for our luxurious laminate finishes. Available in seven detailed wood grains, your fence or handrail will have the strength and durability to maintain its vibrant color and lustrous finish for years to come.

WOODGRAINS & COLOR FOILS

When properly stored and fabricated in accordance with VEKA fabrication instruction, exterior laminates are suited for all typical climates found in North America. See warranty for details.

Consider VEKArail to complement your VEKAdeck installation

Color Your World

Laminate color offers limitless design possibilities for both residential and commercial applications. With a durable pebble matte finish, VEKA laminate solid colors model the rich, beautiful color of a true painted surface. Laminate color remains rich and lustrous season after season with minimal upkeep.

Laminate Care, Maintenance and Warranty

► Heat Resistance

Laminates from VEKA achieve a 10% lower predicted heat buildup when compared to other dark color solutions.

► Three-Layer Cool Color Plus Technology

- 1) Clear weatherable protection layer
- 2) Pigmented IR-transparent center layer
- 3) Excellent IR-reflecting white base layer

► Care and Maintenance

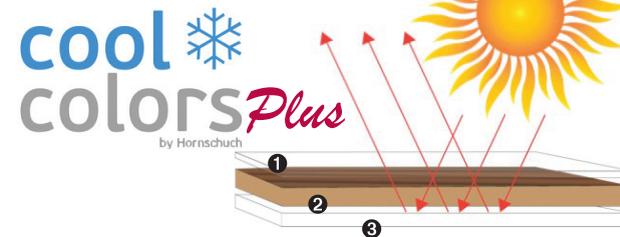

We recommend that profiles be cleaned regularly with a damp, soft cloth. If necessary, use a mild detergent/soap solution in lukewarm water. Polishes, abrasives and organic solvent cleaner should be avoided

► Warranty

VEKA Inc. warrants their laminated and capstocked extrusions to be of the finest quality available and superior for residential and commercial applications for a period of 20-years. For complete warranty information, contact VEKA Outdoor Living Products or visit vekaolp.com.

► Chemical Resistance

Laminate foil is resistant to common household cleaners such as ammonia water, low-alcohol content mixtures, non-abrasive cleaners, and resistant to wet concrete or plaster. Laminate foil is not resistant against organic solvents, preparations containing organic solvents (such as thinners or removers for lacquers, polishing liquids, glues or other). All cleaning substances should be tested on a non-visible area for compatibility before use.
